## Feel the Power of FLEXability

## AIG Is Excited to Announce the Launch of the Russell 2000<sup>®</sup> Index in The Power Series of Index Annuities<sup>®</sup>!

Help clients diversify their annuity allocations and enhance their growth potential through exposure to U.S. small-cap stocks. As the chart below shows, the Russell 2000<sup>®</sup> Index (Ticker Symbol: ^RUT) may help boost the growth opportunities of your clients' annuity assets, while potentially reducing risk. Keep in mind, interest earnings depend not only on the performance potential of the index, but also on interest crediting factors, such as index rate caps. These factors can reduce or limit the amount of interest earned in your clients' accounts.

Note: Past performance is not a guarantee of future results. The above index returns do not reflect the amount of interest credited to an index interest account. Actual results for a specific insurance contract depend on the account chosen and the crediting mechanisms, such as index rate caps, for the time period shown. These mechanisms may limit or reduce the amount of interest earned. Indices are unmanaged and not available for direct investment. See reverse side for index definitions and disclosures.

## A Powerful New Lineup of Index Interest Accounts

In addition to the new Russell 2000<sup>®</sup> Index we've also streamlined the accumulation options available in The Power Series of Index Annuities. Effective April 8, 2019, we're closing some accounts with a spread and adding new participation rate options based on our existing indices. Product, state and firm variations apply.

• NEW! Russell 2000<sup>®</sup> Annual Point-to-Point with Index Rate Cap or Participation Rate, depending on the index annuity selected

Index annuities are not a direct investment in the stock market. They are long-term insurance products with guarantees backed by the claims-paying ability of the issuing insurance company. They provide the potential for interest to be credited based in part on the performance of the specified index, without the risk of loss of premium due to market downturns or fluctuations. Index annuities may not be suitable or appropriate for all clients.

Withdrawals may be subject to federal and/or state income taxes. An additional 10% federal tax may apply if clients make withdrawals or surrender their annuity before age 59½. Clients should consult their tax advisor regarding their specific situation.
